

Audi Original Accessories®

The Audi iPod adapter

Information and model compatibility

Full control of your iPod's current play list is available through your vehicle's existing audio or radio navigation system. Control is also possible via the multi-function steering wheel if fitted to your vehicle. Your iPod is charged while connected. The iPod adapter is easy to fit and sits either behind your current audio system or within the glovebox of your vehicle. The adapter includes a control unit, cable set and full fitting instructions. It is suitable for the following iPods – 3G, 4G, 4G U2 Edition, Mini, Nano and Photo. Please note that the iPod adapter is not suitable for vehicles with MOST BUS.

Part no. 8E0 051 444 A

€136.11 including VAT but excluding fitting
